٢ التعبير عن قرار سريع (رد فعل لحظي وقت الكلام):

.... يخشى / fear / يظن / guess / يفترض / suppose / يتساءل / wonder

٥ لاحظ أن المضارع المستمر لا يدل على المستقبل إلا في حالة وجود تعبير زمني أو سياق يدل على المستقبل :

Then later people began to settle along or near rivers because they were sources of water, food, trade and transport. They used the river water for drinking, cooking and washing. Their animals also drank from these rivers. The rivers were full of fish.

Rivers also made good farmland for these early river settlers. During the yearly flood, rivers carried along with them river mud which was very fertile. This fertile soil was left behind after each flood. Thus, river banks or valleys were suitable places for farming. The people started to **cultivate** their own crops.

Besides the fertile soil, rivers were also used as a form of highways. Men began to use rafts and boats as a form of water transport to carry their extra food. They sailed to another part of the river to trade with the other settlers. So they became farmers as well as traders. When they began to travel up and down the rivers, they learned about the customs and beliefs of the other settlers.

As trade and transportation grew, the population also grew. These river settlements grew into cities, and these cities became centres of great civilisations like those found in early Egypt, India and China. These civilisations had powerful governments with many laws and government workers.

If on the contrary, you imagine that you cannot do the simplest thing in the world, it is impossible for you to do it and molehills become for you unscalable mountains. "The happiest people are those who think of the most interesting thoughts. However, the move to renewable sources like solar and wind power is more than just a technical change; it represents a commitment to protecting the planet for future generations. Being late for work is not recommended at all. Showing up a few minutes early shows your employer that you're dependable and responsible. Give yourself plenty of time to get ready. When you meet new coworkers, always smile and maintain eye contact as you're speaking with them. This will help you appear friendly. If a coworker asks for your help on something, you should accept and be willing to help, and be sure to show your team that you're enthusiastic when taking on new projects.

Don't be afraid to ask a lot of questions. That's how you'll learn at a new job. You'll likely have to ask for clarification or guidance as you go. Dear Akram's parents,

I hope you are fine. I'm writing to inform you mainly that your son hasn't come to school for two weeks. Can we know the reason? We asked his close friends, but they didn't mention any reason that requires Akram to be absent from school, so we hope he is fine.

Also, we want you to be aware of his reports. Unfortunately, his performance is the worst in the class. First, he has never done any homework since we welcomed him this year. He always says, "Sorry, my relative passed away yesterday." We realized later that none of his relatives had died.

Secondly, he always makes trouble and takes his classmates' sandwiches and allowances. All of the class complained about the matter two days ago. Moreover, he replaces his torn shoes with any shoes he likes from the class students every week. He forces his classmates to do so.

The biggest of all, some of his friends saw him smoking in the playground behind the trees. This can end his future in the school. He doesn't only harm himself, but he also harms his mates as he sells cigarettes for students to try smoking. Please be understanding and do not make a hasty decision with the boy. We urge you to come with him next Sunday to discuss the issue together.

Best Regards,

Shopping has changed greatly because of technology. Today, people can buy almost anything online without leaving their homes. This is called e-commerce, and it has made life more convenient for millions of shoppers. However, smart shopping means more than just clicking a button. It means making thoughtful decisions to get the best value for your money.

Many stores now use technology to increase their sales. For example, they send personalized offers to customers' phones based on previous purchases. They also use social media advertisements to attract younger buyers. Some companies use artificial intelligence to recommend products that shoppers might like. These methods help stores sell more, but they can also encourage impulse buying.

To shop smartly, you should compare prices across different websites before buying. You should also read product reviews from other customers. Another useful tip is to use price-tracking apps that notify you when an item goes on sale. These tools help you avoid overpaying. Time is one of the most valuable things in life. Every person has 24 hours a day, and how we use this time determines our success, happiness, and overall well-being. Unlike money, time cannot be saved or recovered once it is lost. People who manage their time well can achieve more in life, meet their goals, and feel less stressed.

To make good use of time, it is important to plan your daily activities in advance. Creating a to-do list can help you stay organized and complete tasks on time without feeling overwhelmed. Prioritizing tasks is also essential; you should always finish the most important or urgent things first before moving on to less critical activities.

Unfortunately, many people waste time on unnecessary activities. Spending too many hours on social media, watching television for long periods, or playing video games without limits can reduce productivity and delay important work. Instead, people should use their time wisely by reading books, exercising regularly, learning new skills, or helping others in their community.

Using time effectively leads to a more successful and fulfilling life. When you respect your time, you will have more opportunities to grow, learn, and enjoy the things that truly matter. Remember: time is a gift, and what you do with it shapes your future.

I also have a role in helping others around me. I should respect my parents, teachers, and neighbours. Helping poor people and taking part in charity activities are good ways to support society. In addition, keeping the environment clean is very important. I should not throw rubbish in the streets and I should protect public places.

Moreover, being honest and kind makes society better and safer. When people cooperate and respect each other, life becomes easier and happier for everyone.

Online shopping also offers many choices, so customers can compare prices and choose the best quality. In addition, many websites provide discounts and home delivery services, which makes shopping more convenient.

However, online shopping also has some disadvantages. Sometimes the product may not look the same as it appears in pictures, or it may arrive late. There is also a risk of fraud if people use unsafe websites.

In my opinion, online shopping is very useful if people use trusted websites and check reviews before buying. It makes life easier and saves both time and effort.

Read the following passage, then choose the correct answer from a, b, c or d:

Hello, I am Jake. I have returned to my hometown of Wilson Creek after an absence of ten years. So many things have changed around here. When I left Wilson Creek, there was a small pond on the right as you left town. They have filled in this pond and they have built a large shopping mall there. A new post office has also been built just across from my old school. There is a baseball stadium on the outskirts of Wilson Creek which has been changed completely. They have now added a new stand where probably a few thousand people could sit. It looks really great. The biggest changes have taken place in the downtown area. They have pedestrianised the centre and you can't drive there anymore. A European-style fountain has been built and some benches have also been added along with a grassy area and a new street cafe. My street looks just the same as it always has but a public library has been built in the next street along. There used to be a great park there but they have cut down all the trees which is a pity. The library now has a large green area in front of it but it's not the same as when the park was there. Another improvement is the number of new restaurants that have opened in Wilson Creek. A Chinese and an Italian restaurant have opened in the town centre and a Mexican restaurant has opened near my home. Which is where I am going tonight!
